

## **PMTD Security Statement**

Effective date: December 15, 2009.

PMTD takes the privacy and security of our customers seriously. This online Security Statement will explain how your information is hosted and protected.

### **How is your information hosted?**

PMTD utilizes Authorize.net to provide our customers with secure credit card processing.

Authorize.Net is committed to safeguarding customer information and combating fraud. They operate with a mission to provide the most secure and reliable payment solutions.

To accomplish this, Authorize.Net dedicates significant resources toward a strong infrastructure, and adheres to both strict internal security policies and industry security initiatives.

With Authorize.Net, you can be confident your data is secure. They utilize industry-leading technologies and protocols, such as 128-bit Secure Sockets Layer (SSL) and are compliant with a number of government and industry security initiatives.

### **Payment Card Industry Data Security Standard**

The Payment Card Industry Data Security Standard (PCI DSS) is a set of comprehensive requirements developed by the major card brands to facilitate the adoption of consistent data security measures. Each year Authorize.net renews their PCI DSS compliance. To confirm PCI compliance, please see [Visa's list of compliant service providers](#).

### **Sarbanes-Oxley Act**

Sarbanes-Oxley, or SOX, is a set of federally mandated accounting standards for all U.S. public company boards, management, and public accounting firms. Authorize.Net is validated annually by external auditors for the current, relevant portions of the Sarbanes-Oxley Act.

### **SAS 70**

The Statement on Auditing Standards No. 70, commonly known as SAS 70, defines the professional standards used to assess the internal controls for organizations that provide outsourcing services which impact the control

environment of customers. Authorize.Net is validated annually by external auditors for SAS 70 Type 2.

### **Additional Legal Compliance**

Authorize.Net and its parent company CyberSource validate security measures against applicable sections of numerous federal and state laws—HIPAA, GLBA, California Senate Bill 1386 (SB1386), and many others. Their industry partners also perform regular audits.

If you have questions or concerns about security, please contact PMTD using one of the following methods. Please include your name, telephone number, e-mail address, and mailing address so that we can communicate with you directly.
